

Certificate of constancy of performance

0672-CPR-0493

In compliance with Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the

Construction Product(s): **Guide Bearings and -Restraint Bearings
with trade name
mageba-Guide Bearings and mageba-Restraint Bearings**

with sliding elements (EN 1337-2) as guide bearing, for effective bearing temperatures of -35 °C to +48 °C, types 8.2 and 8.1 (EN 1337-1), optionally in combination with steel laminated elastomeric bearings (EN 1337-3), types 1.2 and 1.6 (EN 1337-1), for effective bearing temperatures adapted to the steel laminated elastomeric bearing, for use in building and civil engineering works where requirements on individual bearings are critical,

produced by or for: **mageba sa
Solistrasse 68,
CH-8180 Bülach, Switzerland**

produced in the
manufacturing plant(s): **mageba sa
Solistrasse 68,
CH-8180 Bülach, Switzerland**

The Certification Body of Materials Testing Institute University of Stuttgart certifies that all provisions concerning the assessment and verification of constancy of performance described in

Annex ZA
of the standard(s): **EN 1337-8:2007**

under system: **1**

for the performances set out above are applied and that the construction product fulfils (products fulfil) all the prescribed requirements for these performances.

This certificate contains 1 page(s) and was first issued on **2015-01-29** and replaces the EC-Certificate of Conformity (0672-CPD-050.616) to a certification issued on 2009-10-08. It will remain valid as long as the test methods and/or factory production control requirements included in the harmonised standard, used to assess the performances of the declared essential characteristics, do not change, and the construction product, and the manufacturing conditions in the plant are not modified significantly, unless suspended or withdrawn by the product certification body.
